Elastic Necktape

for single use, Colour: white

Lenght	for Biteblock	for Guedel Airway	REF	Box
40 mm	-	Gr. 000–0	40-06-040	10
55 mm	-	Gr. 1+2	40-06-055	10
75 mm	Gr. 4–6	Gr. 3–5	40-06-075	10

Tracheostomy

Tracheostomy Necktapes

Tube Fixations for tracheostomised patients
for single use

Tracheostomy

Tracheostomy Necktape with velcro fastener

Material: Velours coated foam, Colour: blue

Patient	Lenght	REF	Box
Infant / Child	355 mm	40-0005-011	10
Child / Adult	470 mm	40-0005-033	10
Adult, extra large	520 mm	40-0005-044	10

Tracheostomy Necktape with velcro fastener

Material: Cotton coated foam, Colour: skin coloured

Patient	Lenght	REF	Box
Infant / Child	340 mm	40-0008-011	10
Child / Adult	490 mm	40-0008-033	10
Adult, extra large	590 mm	40-0008-044	10

Tracheostomy Necktape with velcro fastener, separable

Material: Cotton coated foam, Colour: skin coloured

Patient	Lenght	REF	Box
Child / Adult	400 mm	40-0066-033	10

Tracheostomy Dressing

for single use, sterile,
Size: 9.0 x 9.0 cm

- ▶ breathable, acts as a second skin
- ▶ absorbs moisture
- ▶ avoids pressure sores

Respiration Tubings & Anaesthesia Systems

Tube Inhaler Catheter Mount Tubings

for standard MDI canisters, with suction port (max. 16 Fr), reusable, Material: Silicone (Connecting Tubing), PSU (Connector)

Length: 13.0 cm

REF 65-10-009 Box 10

Length: 13.0 cm

REF 65-15-209 Box 10

BROSU

Connector with lock for safe bronchoscopy and suctioning without leaks. Once the cap is opened, the internal lock guarantees system tightness.

- ▶ anaesthetic gases cannot escape
- ▶ no loss of pressure (PEEP)
- ▶ minimum risk of contamination during suctioning (alternative to sterile suction systems)
- ▶ ideal seal during and after bronchoscopy

Size (port)	Colour Code	fits for Suction Catheter	fits for Bronchoscope	for single use, Material: pC	Box
2.0 mm	yellow	6, 8 Fr	≥ 2.0 mm O.D.	60-60-361-1	10

Support Arms & Tube Holders

Tube-Tray

Tube holders for adult and paediatric breathing tubes

- ▶ various openings for a perfect fit to breathing tubes of different size and material
- ▶ also accepts gas sampling tubes
- ▶ does not contain ferromagnetic materials
- ▶ versatile placement either behind or lateral to the patients' head
- ▶ relieves stress on patients' mouth and face

Tube-Tray, straight

REF 77-10-000

Tube-Tray, angled

REF 77-20-000

Tube-Tray with rail clamp

REF 77-00-020

Pressure Infusion Cuffs

Manual system for rapid IV infusion of solutions. Ideal for operating rooms, intensive care stations and ambulances.

Dispo Infusor

Pocket design with hook fastener, for single use

	Version	REF	Box
500 ml	with female Luer Lock connection	56-01-050	5
	with hand inflator, stop cock and colour coded pressure indicator	56-02-050	5
	with hand inflator and stop cock	56-03-050	5

	Version	REF	Box
1000 ml	with female Luer Lock connection	56-01-100	5
	with hand inflator, stop cock and colour coded pressure indicator	56-02-100	5
	with hand inflator and stop cock	56-03-100	5

Pocket design with hook, for single use

	Version	REF	Box
3000 ml	with female Luer Lock connection	56-01-300	1
	with hand inflator, stop cock and colour coded pressure indicator	56-02-300	1

Infusor

Transparent wrap-around design with hook, reusable

	Version	REF	Box
500 ml	with hand inflator, stop cock and colour coded pressure indicator	57-02-050	1
	with hand inflator, stop cock and precision manometer	57-08-050	1

	Version	REF	Box
1000 ml	with hand inflator, stop cock and colour coded pressure indicator	57-02-100	1
	with hand inflator, stop cock and precision manometer	57-08-100	1

	Version	REF	Box
3000 ml	with female Luer Lock connection	57-01-300	1
	with hand inflator, stop cock and colour coded pressure indicator	57-02-300	1
	with hand inflator, stop cock and precision manometer	57-08-300	1

Pressure Infusion Cuffs

Pressure Infusion Cuff

Pocket design with double hook, reusable 

	Version	REF	Box
500 ml	with hand inflator, stop cock and colour coded pressure indicator	58-02-050	1
	with hand inflator, stop cock and precision manometer	58-08-050	1
1000 ml	with hand inflator, stop cock and colour coded pressure indicator	58-02-100	1
	with hand inflator, stop cock and precision manometer	58-08-100	1

Pocket design with zip, reusable

	Version	REF	Box
3000 ml/ 5000 ml	with female Luer Lock connection	52-01-300	1
	with hand inflator and precision manometer	52-08-300	1

Pocket design with hook, reusable

	Version	REF	Box
1500 ml	with female Luer Lock connection	53-01-150	1
	with hand inflator and precision manometer	53-08-150	1

Automatic Pressure Infusors

Automatic Pressure Infusor 100 & 200

For the use with pressure infusion cuffs for automatic irrigation purposes during minimal invasive surgery.

Precision Pressure Regulator

- ▶ very precise pressure regulation
- ▶ maintains selected pressure and guarantees automatic compensation
- ▶ limits pressure to max. 300 mmHg

Protection Cover

- ▶ protects the device from liquid and damage

Coil Extension Hose

- ▶ firmly connected to the device
- ▶ with male Luer Lock connector

Universal Clamp

- ▶ horizontal or vertical position for attachment to drip stand or rail

Automatic Pressure Infusor 100

for compressed air
with single channel, complete with pressure hose (400 cm / 13 ft.)

Version	with pressure hose (4 m) and pressure connection RECTUS	with pressure connection NIST
with universal clamp	REF 52-13-100	REF 52-13-100NIST
with stand and basket	REF 52-15-100	REF 52-15-100NIST

Automatic Pressure Infusor 200

for compressed air
with switch for the connection of two pressure infusion cuffs, complete with pressure hose (400 cm / 13 ft.)

Version	with pressure hose (4 m) and pressure connection RECTUS	with pressure connection NIST
with universal clamp	REF 52-13-200	REF 52-13-200NIST
with stand and basket	REF 52-15-200	REF 52-15-200NIST

Miscellaneous Products

Gastric Tube Guide

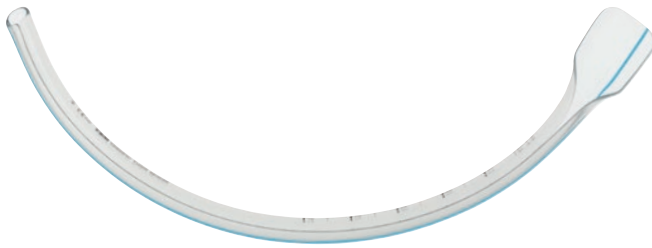

Insertion aid for the oral placement of gastric tubes

As the introduction of a gastric tube is often more difficult and time-consuming than other anaesthetic procedures (intubation, IV access, etc.), the Gastric Tube Guide is the perfect tool for quick oral placement of gastric tubes. It is effective without complications for all types of gastric tubes (max. 18Fr).

Gastric Tube Guide

for single use, Material: PVC, sterile

REF 49-40-018-1 Box 10
